Indigenous Educational Experiences and Survey Research
LSC Longs Peak (Room 302)
12 pm - 1:30 pm

Dr. Jameson Lopez describes his previous research through his personal educational stories as a Native American veteran that look at what it means to be a successful Indigenous college student. His most recent research, he further explores the relationships among Kwanamii (warrior spirit), nation-building, and post-secondary education. The research challenges us to look at educational outcomes based on the values of community, and argues that these value-based outcomes are likely better measurements of educational achievement than other mainstream educational achievement metrics.
